RCBC students go everywhere!

It’s All Up To You! The opportunities for transferring to a four-year college or university from Rowan College at Burlington County (RCBC) are extensive. The list of partner schools continues to grow each year, and the number of schools that RCBC students transfer to grows each year too.

So make the best use of your time at Rowan College at Burlington County, plan for your transfer, work hard, get good grades, and you will be on your way.
Dear Students,

Rowan College at Burlington County ranks among the top colleges in the nation for our ability to increase your earning potential after graduation. Your income will also increase as you advance to higher degrees, which is why you are making such a wise decision to plan your education beyond RCBC.

You are also among the first beneficiaries of our new premier partnership with Rowan University. Upon graduation, you will be conditionally-accepted into most university programs whether in Glassboro, online, or on our Mount Laurel campus.

Online and onsite programs include a 15 percent tuition discount from the university that makes it possible to earn a bachelor’s degree for as low as $30,000. While you may have friends paying that much for one year of education at a university, you have the opportunity to pay as little as $30,000 total for a bachelor’s degree from one of the best universities in the nation.

I highly encourage all of you to consider a path to a Rowan University. If you happen to be looking for something else, Rowan College at Burlington County maintains all of the excellent transfer opportunities that existed before the Rowan University partnership.

Best of luck with your academic pursuits at RCBC and your next institution, and I look forward to seeing you around campus.

Paul Drayton
President
Rowan College at Burlington County
THE TRANSFER PROCESS

Rowan College at Burlington County provides students with a rich array of opportunities to continue their education by transferring to four-year colleges and universities throughout the state, region, and country.

Each year, many RCBC students successfully transfer into a variety of academic programs at four-year colleges and universities. In a large part, this can be attributed to the importance RCBC attaches to its mission of helping students achieve their academic goals, the seriousness of our students in their desire to continue their education and complete their bachelor’s degree, and the outstanding work of the RCBC faculty in helping students achieve academic success.

This guide is designed to help students understand the multi-part transfer process at RCBC, a process that should begin early in a student’s academic career at Rowan College at Burlington County.

Transfer Tips ........................................ Back Cover
The two most important elements in successful transfers are (1) a student’s grade point average and (2) the courses a student has taken at RCBC.

The stronger your grade point average…the stronger your candidacy for transfer; and taking the appropriate courses for the major you wish to transfer into at the four-year school, will maximize the efficiency of your work at RCBC.

One of the myths associated with transferring from a two-year to a four-year school is the belief that all credits will transfer. Every college and university has its own curriculum based on the institution’s values and mission, and therefore, not every course will transfer. So the bottom line is this:

**You need to PLAN if you want to transfer.**

What is involved in planning for transfer?

Planning for your transfer involves both *internal* and *external* exploration.

**Internal exploration** involves realistically examining your interests, skills, and abilities to identify potential career options. Then, with the help of an academic advisor, you can determine the choice of an academic major that can best lead you toward your desired career path. After you have examined your interests and abilities, and matched these to the requirements of a particular major (or majors), you are ready to move on to the next step in the planning process.

**External exploration** involves examining schools that have the programs/majors you are considering via the internet. This also means looking at the admissions requirements, the recommended transfer programs, the transferability of RCBC courses into that school and those majors, the costs of attending the schools, the campus environment, and several other factors.
This is just the first part of the external exploration process. The second part involves formally visiting various colleges you may be interested in attending. This means meeting with admissions representatives and ideally meeting with faculty from the major you are interested in, touring the campus and surrounding area, and asking questions about what happens to graduates of the major you’re interested in.

When you put all of this together, you can make strong academic and career choices that will help guide your transfer plans.

**The steps to transfer are really quite simple:**

1. Select your intended major and the schools you plan to transfer to and find out the *APPLICATION DEADLINES*.
2. Fill out the admissions application. Most schools prefer you complete their online application. It’s fast and efficient.
3. Make arrangements to have your *OFFICIAL RCBC TRANSCRIPT*, and the official transcripts of any other college you attended, sent to the four-year school.
4. Check the admissions website for additional required materials.
RCBC students transfer to colleges and universities throughout the country. Although most students either stay in New Jersey or the surrounding greater Philadelphia area, RCBC students have transferred to schools in approximately 43 states throughout the country.

RCBC students have four distinct ways to complete their bachelors’ degrees. It is strongly advised that students work with the RCBC Transfer Staff to plan their academic program for degree-completion at RCBC and transfer.

1. **The “Regular” Transfer Process** – This involves (a) identifying the major you are interested in and the school(s) that appeal to you; (b) following a recommended transfer program of courses developed with a transfer advisor to maximize the efficiency of your time at RCBC; and (c) submitting, at the appropriate time (far in advance of admissions deadlines), your official RCBC transcript (and transcripts of any other college you attended) along with the admissions application and fee to the school(s) of your choice.

2. **The Guaranteed Admission Program (GAP)** – RCBC has teamed up with over 30 “partner schools” (and the list keeps growing) to offer a structured method for RCBC graduates to guarantee admission to the school of their choice.

   *The requirements for the GAP are as follows:*

   a. Students must complete an **Intent to Transfer form** for one partner school and identify the major they intend to transfer into at that school **before** they have registered for their 30th credit at RCBC. **Please note that you cannot change your intended major and remain eligible for the GAP, so it is important to be certain about the major you select.** You are eligible to fill out one GAP application; if a student changes their mind please refer to the “Regular” transfer process.

   b. Students must take all their courses at RCBC, follow the recommended transfer program for their intended major, and complete either an Associate of Arts (AA) or Associate of Science (AS) at RCBC. Students cannot transfer in courses taken at other schools and be eligible for the GAP.

   c. Students must earn a grade point average specific to the partner school.
d. Students must meet with the RCBC Transfer Center the semester before they intend to graduate [although it is strongly recommended that students in the GAP meet with a Transfer Advisor each semester] and be prepared to submit their application for admission and their official RCBC transcript as prescribed by the Transfer Center.

e. The Transfer Center Director will review the student’s academic record to determine final eligibility for the GAP institution and send a letter to the partner school certifying that the student is a GAP student who has fulfilled all the requirements of the program.

If a student fulfills these requirements, they are guaranteed admission to the partner schools and will have their application fee waived.

Please note that guaranteed admission does not mean that all credits will automatically transfer. However, by working with the Transfer Center staff, students can be assured of getting the maximum number (if not all) of their credits transferred to the partner school.

3. **On-Site Degree Completion Programs** – RCBC has also teamed up with four distinguished institutions to provide bachelors’ degree completion opportunities at RCBC locations. The schools are Rowan University, Fairleigh Dickinson University, Rutgers University-Camden, and Wilmington University.

Through RCBC’s partnerships with these schools, students will be able to complete their bachelors’ degrees in more than 15 majors without leaving Rowan College at Burlington County locations.

4. **Transfer Articulation Agreements** – RCBC also has numerous partnerships with colleges and universities for transfer into specific majors. These are called articulation agreements. In this case, the four-year partner school and RCBC have identified the courses that students need to take at RCBC that will ensure a seamless transfer into the major at the four-year school. Please keep in mind that a transfer articulation agreement means that the listed courses will transfer to the partner school. However, it does not guarantee that you will be accepted for transfer to the articulation-partner school.

5. **Visit rcbc.edu/transfer** – for additional updates on new formal transfer agreements.

PREMIER PARTNERSHIP – ROWAN UNIVERSITY

Through Rowan College at Burlington County’s premier partnership with Rowan University, students now have an affordable path to a bachelor’s degree in Burlington County.

All students who graduate from RCBC will be conditionally-accepted to Rowan University, which will offer a 15 percent tuition discount for programs offered online or at RCBC’s Mount Laurel campus.

Program Benefits:
- Outstanding university degree – for as low as $30,000.
- The most efficient path to four-year degree.
- 15 percent tuition discount for courses taught online and on the Mount Laurel campus.
- Five ($2,000) scholarships given annually to top RCBC students who attend in Glassboro.
- Priority over students from other universities and non-partnered community colleges.

Academic Programs
The University and Rowan College at Burlington County have identified several programs that they are working to bring to the Mount Laurel campus:
- B.S. in Electrical and Computer Engineering
- B.A. in Liberal Studies
- B.G.S. Bachelor of General Studies
- B.A. in Computing & Informatics
- B.S. in Nursing (RN to BSN program)
- M.A. in STEM Education with certifications in Math or Physical Science

RCBC students can now take advantage of the general studies degree on the Mount Laurel campus, and online degree-completion programs in psychology, and law and justice. The college and university are working to bring the other programs to campus as early as fall 2017 or sooner.

TRANSFER TIPS...
A FEW THINGS TO DO WHILE YOU’RE AT RCBC

- Be certain you are enrolled in an academic program that is designed for transfer. (A.A. and A.S. degree programs are designed for transfer; most A.A.S. programs are not.)

- Meet with an Academic Advisor early in your academic career at RCBC to talk about your interests and goals and learn how RCBC can help you.

- Attend the Transfer Visitation Days and the fall Transfer Fair at RCBC to meet admissions representatives from four-year schools and get more information about those schools.

- Begin identifying schools that have the major(s) you are interested in.

- Visit njtransfer.org, New Jersey’s transfer website, for easy-to-navigate information designed to help students learn which courses to select at a community college, how they will transfer and satisfy four-year degree requirements at New Jersey’s colleges and universities and how to contact a New Jersey college or university for information about admissions, transferring courses, and transfer recruitment events.

- Meet with the RCBC Transfer Center staff to build a plan for graduation and transfer.

- Arrange to visit the four-year schools you are interested in and meet with both the admissions representatives and faculty who can tell you more about their academic programs and admissions requirements.

- Arrange follow-up meeting(s) with the RCBC Transfer Center staff regarding your transfer plans.

- Make sure you are aware of the application process and deadlines for the schools you are considering for transfer.

- Study hard and set aside the appropriate amount of time for your academic work each semester (the general rule of thumb is two hours out of class for every hour in class each week… e.g. 12 credits = 36 hours per week in and out-of-class study).
