**PURPOSE:**

Rowan College at Burlington County recognizes that raising funds for authorized College projects is a highly desirable activity. The actual solicitation of funds takes time, organization and a great deal of sensitivity and awareness of institutional needs and the use of appropriate fundraising techniques.

**POLICY:**

In order to satisfy College goals in this area, the Board of Trustees established the College Foundation. All College fundraising activities are centralized in the Foundation, which has the capability, the personnel and the legal authorization for raising funds. Therefore, individuals, groups and organizations employed by, or in any way affiliated with, the College are required to obtain the prior written approval of the Foundation before raising funds on behalf of the College.

Students, student groups, and student organizations are governed by Board Policy 806-A, Student Fundraising.
