ELECTRICAL ENGINEERING TECHNOLOGY

**Code:** EET-101  
**Title:** Introduction to Electronics

**Division:** STEM

**Course Description:** This course explores the fields of electronics and computers for those who have no experience in these fields. It includes circuit components, Ohm's Law, basic DC and AC circuits, an introduction to power supplies, transistor and integrated circuit amplifiers, and opt-electronic communications. Laboratory experiments cover these topics and verify lecture theory. The laboratory also introduces measurement techniques using a multi-meter, function generator, oscilloscope, and computer simulation using circuit analysis software.

**Prerequisite:** High school algebra or MTH-075  
Note: EET-101 cannot be taken after passing EET-121

**Credits:** 3 cr.

**Required Materials (Check Bookstore for Latest Edition):**  
Click on the bookstore for the supplies which you are attending each class.  
Rcbc.edu/bookstore

**Course Learning Outcomes:**  
Upon completion of this course, students will be able to:

- Use test equipment to perform measurements.
- For Electronic Circuits, identify the characteristics of, analyze and solve problems.

**General Education Outcomes in This Course:**

<table>
<thead>
<tr>
<th>Written and Oral Communication: Communication</th>
<th>* Students will communicate meaningfully with a chosen audience while demonstrating critical thought.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Quantitative Knowledge and Skills: Mathematics</td>
<td>* Students will translate quantifiable problems into mathematical terms and solve these problems using mathematical or statistical operations.</td>
</tr>
</tbody>
</table>
**CORE COURSE CONTENT:**

- **Lecture**
  - Conduction, Current, and Voltage
  - Resistance, Prefixes, Ohm’s Law, and Power
  - Series Circuits
  - Parallel Circuits
  - Introduction to Alternating Current and Voltage
  - Capacitance Properties and Capacitive Reactance
  - Transformers, Diodes, and the Power Supply
  - The Bipolar Transistor and Transistor Amplifiers
  - Junction and MOSFET Transistors and Amplifiers
  - Integrated Circuits, the Non-Inverting Operational Amplifier & IC Power Amps
  - The Inverting Operational Amplifier and the Karaoke IC Power Amplifier
  - Optoelectronics and Light wave Communications

- **Labs**
  - Building and using a Continuity Tester
  - Resistance Color Code, Use of DMM to Measure Resistance, and use of Ohm’s Law to Determine Resistance.
  - Using the VOM to Measure DC Voltages in a Series Circuit Electronic Workbench (EWB) introduction
  - Using the VOM to measure DC Currents in a Parallel Circuit and EWB analysis of the Parallel Circuit
  - Introduction to the Function Generator and the Oscilloscope
  - How Capacitive reactance changes with Frequency
  - Applying Capacitance Properties to a Circuit that has both a DC and Hi Frequency AC Waveform
  - Using the VOM to test the Diode and to Build a Full Wave AC Power Supply for Auto Accessories
- Use the VOM to test the BP Transistor and to Build a 1 Transistor Walkman Speaker Amplifier
- Build a MOSFET Parabolic Dish Microphone - Headphone Amplifier
- Build an IC Power Amp with a Microphone Input
- Build a Karaoke IC Power Amp with Mic and Walkman Inputs
- Voice Communication via a Light Transmitter
- Voice Communication via a Light Receiver

**Course Activities:**

Course activities vary from course to course and instructor to instructor. Below is a listing of some of the activities students can anticipate in this course:

- **Writing assignments:** students will analyze current issues in the field using current articles from the popular press as well as library research including electronic resources databases.

- **Speaking assignments:** students will present research individually or in groups using current technology to support the presentation (e.g., PowerPoint presentation); students will participate in discussions and debates related to the topics in the lessons. Discussions may also focus on cross-cultural and legal-ethical dilemmas as they relate to the course content.

- **Simulation activities:** Trends and issues will analyzed for their ethical as well as social or legal significance. Students might role-play common situations for classmates to analyze. Current news articles may be used to generate discussion.

- **Case Studies:** Complex situations and scenarios will be analyzed in cooperative group settings or as homework assignments.

- **Lectures:** This format will include question and answer sessions to provide interactivity between students and instructor.

- **Speakers:** Representatives from various related fields may be invited to speak.

- **Videos:** Related topics will provide impetus for discussion.

**Educational Technology:**

Rowan College at Burlington County advocates a technology enhanced teaching and learning environment. Advanced technological tools may be used in any course section to facilitate instruction. Many of our sections are web-enhanced, which means that some of your work will be submitted or completed online. Web enhancements may include online materials, grade books, testing and quizzes and assignment submission. Many students enjoy the flexibility and convenience that these online enhancements have
provided, however if you have concerns about the technology involved, please speak to your instructor immediately.

**STUDENT EVALUATIONS:**

The student will be evaluated on the degree to which student learning outcomes are achieved. A variety of methods may be used such as tests, quizzes, class participation, projects, homework assignments, presentations, etc.

See individual instructor’s course handouts for grading system and criteria (point value for each assessment component in course, e.g. tests, papers, presentations, attendance etc.), number of papers and examinations required in the course, and testing policy including make ups and/or retests.

**GRADING STANDARD:**

A  Mastery of essential elements and related concepts, plus demonstrated excellence or originality.
B+ Mastery of essential elements and related concepts, showing higher level understanding.
B  Mastery of essential elements and related concepts.
C+ Above average knowledge of essential elements and related concepts.
C  Acceptable knowledge of essential elements and related concepts.
D  Minimal knowledge of related concepts.
F  Unsatisfactory progress. This grade may also be assigned in cases of academic misconduct, such as cheating or plagiarism, and/or excessive absences.

For other grades, see the current ROWAN COLLEGE AT BURLINGTON COUNTY catalog.

**COLLEGE POLICIES:**

The current college catalog and student handbook are important documents for understanding your rights and responsibilities as a student in the RCBC classroom. Please read your catalog and handbook as they supplement this syllabus, particularly for information regarding:

- Academic Integrity Code
- Student Conduct Code
- Student Grade Appeal Process

**OFFICE OF STUDENT SUPPORT AND DISABILITIES SERVICES:**

RCBC welcomes students with disabilities into the college’s educational programs. Access to accommodations and support services for students with learning and other disabilities is facilitated by staff in the Office of Student Support (OSS). In order to
receive accommodations, a student must contact the OSS, self-identify as having a
disability, provide appropriate documentation, and participate in an intake appointment.
If the documentation supports the request for reasonable accommodations, the OSS will
provide the student with an Accommodation Plan to give to instructors. Contact the
Office of Student Support at 609-894-9311, ext. 1208 or visit the website at:
www.rcbc.edu/studentsupport

**ADDITIONAL SUPPORT/LABS:**

RCBC provides academic advising, student support personal counseling, transfer
advising, and special accommodations for individuals with disabilities free to all students
through the Division of Student Services. For more information about any of these
services, visit the Laurel Hall on the Mt. Laurel Campus, or call (609) 894-9311 or (856)
222-9311, then dial the desired extension:
- Ext. 1557 Academic Advisement and Counseling
- Ext. 1803 Special Populations
- Ext. 2737 Transfer Center

Or visit the following websites:
Academic Advising         www.rcbc.edu/advising
Student Support Counseling  www.rcbc.edu/counseling
Transfer Center           www.rcbc.edu/transfer

RCBC offers a free tutoring for all currently enrolled students. For more information
regarding The Tutoring Center call Extension 1495 at (609) 894-9311 or (856) 222-9311
or visit the Tutoring Center Website at www.rcbc.edu/tutoring
