RADIOGRAPHY

**Code:** RAD 230

**Title:** Equipment Operation and Maintenance

**Division:** Health Sciences

**Course Description:** This course focuses on the construction, instrumentation, and underlying physical principles of various types of imaging. It emphasizes fluoroscopic image intensifying, mobile, and various specialized systems. Emphasis is placed in safe operating procedures and limits of radiographic equipment.

**Prerequisite:** RAD 225

**Credits:** 4 cr.

**Required Materials (Check Bookstore for Latest Edition):**
Click on the bookstore for the supplies which you are attending each class.
[Rowan.edu/bookstore](http://Rowan.edu/bookstore)

**Course Learning Outcomes:**
Upon completion of this course, students will be able to:

- Understand how x-radiation is produced
- Demonstrate knowledge of equipment utilized to produce diagnostic images;
- Compare and contrast quality control/quality assurance;
- Identify the benefits of a radiologic quality assurance/control program;
- Identify the elements of a radiologic quality assurance/control programs;
- Explain mammographic equipment;
- Explain bone densitometry equipment;
- Explain the differences between permanent and mobile radiographic units and common applications of each;
- Understand the types, components, and purpose of mobile units.
- Explain tomography equipment;
- Explain the utilization of automatic exposure control devices, to include ionization chambers, maximum reaction time, backup time, positioning considerations and compensation for various body habitus;
• Explain the components of the image intensifier;
• Understand/demonstrate the principles associated with image intensification;
• Explain/demonstrate various recording media and techniques in fluoroscopy;
• Explain angiographic equipment;
• Explain computed tomography equipment
• Explain the purpose and procedure of magnification radiography;
• Explain bone densitometry equipment
• Employ a quality control program for intensifying screens
• State the purpose and construction of darkroom.
• Discuss safelight illumination appropriate for specific image receptor systems.
• Discuss the possible causes and health implications of “darkroom chemical sensitivity” - Discuss dark room-related OSHA standards for health and safety
• Demonstrate knowledge of automatic film processing
• State the purpose and methods of silver recovery
• Identify the purpose of a daily quality control program for processors.
• Explain the basic concepts behind MRI, nuclear medicine, and the associated equipment.

**General Education Outcomes in This Course:**

<table>
<thead>
<tr>
<th>Written and Oral Communication: Communication</th>
<th>* Students will logically and persuasively support their points of view or findings.</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>* Students will communicate meaningfully with a chosen audience while demonstrating critical thought.</td>
</tr>
<tr>
<td></td>
<td>* Students will conduct investigative research which demonstrates academic integrity, originality, depth of thought, and mastery of an approved style of source documentation.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Quantitative Knowledge and Skills: Mathematics</th>
<th>* Students will analyze data to solve problems utilizing appropriate mathematical concepts.</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>* Students will translate quantifiable problems into mathematical terms and solve these problems using mathematical or statistical operations.</td>
</tr>
<tr>
<td></td>
<td>* Students will logically solve problems using the appropriate mathematical technique.</td>
</tr>
</tbody>
</table>
| Scientific Knowledge and Reasoning: Science | * Students will understand and employ the scientific method of inquiry to draw conclusions based on verifiable evidence.  
* Students will explain the impact of scientific theories, discoveries, or technological changes on society.  
* Students will demonstrate critical thinking skills in the analysis of scientific data. |
| Technological Competency or Information Literacy: Technology | * Students will demonstrate competency in office productivity tools appropriate to continuing their education.  
* Students will use critical thinking skills for computer-based access, analysis, and presentation of information.  
* Students will exhibit competency in library online database tools appropriate to accessing information in reference publications, periodicals and bibliographies.  
* Students will demonstrate the skills required to find, evaluate, and apply information to solve a problem. |

**Core Course Content:**

- Intro to RAD 120
- Review of Intro to Physics RAD 105B
- Review of Physics RAD 114B
- Start Rectifiers
- Start Circuits
- Roentgen Rays
- Introduction to special topics
- Quality Assurance/Quality Control
- Fluoro/ Tomo QA
- Ancillary Equipment & Repeat Analysis
- Select QA projects
- Compare permanent & mobile equipment
- Mobile radiographic equipment
• AEC & miscellaneous
• Tomographic equipment
• Continue tomographic equipment
• Complete tomographic equipment
• Image intensification systems
• Fluoroscopic tubes
• Viewing systems
• Recording systems
• Digital imaging
• Digital application
• Vascular Imaging Equipment
• Angiographic Tables
• Contrast Injection Devices
• Mammographic Equipment
• Mammographic Accessories
• Magnification, duplication
• Computed Tomography
• MRI
• Class time for continuation of material not completed or for field trip time QA Projects
• FIELD TRIPS include the following and will try to be scheduled on a Clinical Day
  • Animal Hospital, HUP
  • Muetter Museum, McGuire AFB
  • Digital Radiography

**COURSE ACTIVITIES:**

Course activities vary from course to course and instructor to instructor. Below is a listing of some of the activities students can anticipate in this course:

- **Writing assignments:** students will analyze current issues in the field using current articles from the popular press as well as library research including electronic resources databases.

- **Speaking assignments:** students will present research individually or in groups using current technology to support the presentation (e.g., PowerPoint presentation); students will participate in discussions and debates related to the topics in the lessons. Discussions may also focus on cross-cultural and legal-ethical dilemmas as they relate to the course content.
Simulation activities: Trends and issues will be analyzed for their ethical as well as social or legal significance. Students might role-play common situations for classmates to analyze. Current news articles may be used to generate discussion.

Case Studies: Complex situations and scenarios will be analyzed in cooperative group settings or as homework assignments.

Lectures: This format will include question and answer sessions to provide interactivity between students and instructor.

Speakers: Representatives from various related fields may be invited to speak.

Videos: Related topics will provide impetus for discussion.

EDUCATIONAL TECHNOLOGY:

Rowan College at Burlington County advocates a technology enhanced teaching and learning environment. Advanced technological tools may be used in any course section to facilitate instruction. Many of our sections are web-enhanced, which means that some of your work will be submitted or completed online. Web enhancements may include online materials, grade books, testing and quizzes and assignment submission. Many students enjoy the flexibility and convenience that these online enhancements have provided, however if you have concerns about the technology involved, please speak to your instructor immediately.

STUDENT EVALUATIONS:

The student will be evaluated on the degree to which student learning outcomes are achieved. A variety of methods may be used such as tests, quizzes, class participation, projects, homework assignments, presentations, etc.

See individual instructor’s course handouts for grading system and criteria (point value for each assessment component in course, e.g. tests, papers, presentations, attendance etc.), number of papers and examinations required in the course, and testing policy including make ups and/or retests.

GRADING STANDARD:

A  Mastery of essential elements and related concepts, plus demonstrated excellence or originality.
B+  Mastery of essential elements and related concepts, showing higher level understanding.
B  Mastery of essential elements and related concepts.
C+  Above average knowledge of essential elements and related concepts.
C  Acceptable knowledge of essential elements and related concepts.
D  Minimal knowledge of related concepts.
F   Unsatisfactory progress. This grade may also be assigned in cases of academic misconduct, such as cheating or plagiarism, and/or excessive absences.

For other grades, see the current ROWAN COLLEGE AT BURLINGTON COUNTY catalog.

**COLLEGE POLICIES:**

The current college catalog and student handbook are important documents for understanding your rights and responsibilities as a student in the RCBC classroom. Please read your catalog and handbook as they supplement this syllabus, particularly for information regarding:

- Academic Integrity Code
- Student Conduct Code
- Student Grade Appeal Process

**OFFICE OF STUDENT SUPPORT AND DISABILITIES SERVICES:**

RCBC welcomes students with disabilities into the college’s educational programs. Access to accommodations and support services for students with learning and other disabilities is facilitated by staff in the Office of Student Support (OSS). In order to receive accommodations, a student must contact the OSS, self-identify as having a disability, provide appropriate documentation, and participate in an intake appointment. If the documentation supports the request for reasonable accommodations, the OSS will provide the student with an Accommodation Plan to give to instructors. Contact the Office of Student Support at 609-894-9311, ext. 1208 or visit the website at: www.rcbc.edu/studentsupport

**ADDITIONAL SUPPORT/LABS:**

RCBC provides academic advising, student support personal counseling, transfer advising, and special accommodations for individuals with disabilities free to all students through the Division of Student Services. For more information about any of these services, visit the Laurel Hall on the Mt. Laurel Campus, or call (609) 894-9311 or (856) 222-9311, then dial the desired extension:
- Ext. 1557 Academic Advisement and Counseling
- Ext. 1803 Special Populations
- Ext. 2737 Transfer Center

Or visit the following websites:
- Academic Advising www.rcbc.edu/advising
- Student Support Counseling www.rcbc.edu/counseling
- Transfer Center www.rcbc.edu/transfer
RCBC offers a free tutoring for all currently enrolled students. For more information regarding The Tutoring Center call Extension 1495 at (609) 894-9311 or (856) 222-9311 or visit the Tutoring Center Website at www.rcbc.edu/tutoring
