It is recommended that you bring lecture slides and handouts with you to class in either electronic form to view on your computer or in hard copy. Students who fail to satisfy the preparation requirement will be ineligible to earn an A for the semester. Attendance and participation are required. Active involvement in the classroom experience may benefit the final grade for the course. Students are responsible for work missed due to absence from class. Recorded Power Point Presentations: This course contains PowerPoint presentations with a recorded audio component. Students are expected to listen to the lectures prior to the assigned class period. Time requirements for each assignment are included with the PPT title. As such, you will need access to PowerPoint and a computer with speakers or a headset. You may listen to the presentations in the Computer Lab if you bring a headset. A PowerPoint viewer can be downloaded for free from Microsoft’s website: https://www.microsoft.com/en-us/download/details.aspx?id=13

Each slide may be viewed as often as necessary to learn the material and may serve as a good refresher before exams.

Steps to Viewing a Recorded Lecture on PowerPoint:

1. Print the slides to enable efficient notetaking.
2. Download the presentation from Blackboard. (You know the presentation is recorded because the time requirement is stated on the title of the presentation.)
3. Click “Enable Editing”
4. Beginning with Slide #1, put the presentation on “Slideshow” mode.
5. You should hear the audio component begin and the slides will progress from one slide to the next.
6. Troubleshooting:
   a. If you are not hearing the audio you need to make certain your speakers / headset are set properly with the volume control turned up and the presentation has been set to “Enable Editing”
   b. Presentations are large files and take time to download. Be patient. Most students are able to use laptops and tablets although smart phones do not normally allow for this.
c. If your system does not meet the standard requirements, use a computer in the computer lab. A headset is required.

**Structure of Exams:** The midterm and final exams each consist of objective questions (2 points each) and a choice of two out of three essay questions (20 - 25 points each). Objective questions are definitional, factual and conceptual. Exam question focus mainly on material taught in the classroom and from textbook readings. Thus, class attendance and reading of the textbook are critical for success in this course. A comprehensive review will be provided prior to both exams.

**Ethnicity Report:** The United States is a heterogeneous society. Competent helping professionals must be prepared to work with persons of backgrounds different from their own. Before one can answer the question of what makes others different we first need to answer the question, “What makes me different?” The purpose of this assignment is to allow opportunity to learn more about one’s own ethnic and cultural heritage and the cultural similarities and differences of others. Students may use a wide modality of mediums for this assignment including library research, family interviews and McGoldrick, Pearce and Giordano, *Ethnicity and Family Therapy*. This book provides extensive information about many ethnic groups residing in the United States and must be reviewed as partial completion of this assignment. This assignment requires students to prepare a class presentation due at the end of the semester to teach the class about your background, culture and advice you would give to a person working from your culture. The purpose of this assignment is to better understand ourselves and help others to do the same.
