Web Enhancement
This course is web enhanced. For successful completion of the course, it is imperative that the student access the course in Blackboard and become fully familiar with the various resources and functions available online. All class handouts, Power Point slides, videos and other materials are available only through Blackboard. Please make certain to log onto Blackboard and explore the online components of the course at the start of the semester. It is recommended that you bring all course materials with you to class either by printing them in hard copy or by bringing an electronic device that grants access to Blackboard. Instructions and log-in for Blackboard are available at http://staff.bcc.edu/distance/login.htm

Structure of the Course: RCBC offers an Associate Degree in Applied Science in Human Services to train mid-level or paraprofessional workers in a variety of programs covering the full range of social service agencies. In addition to training workers to enter
directly into the field upon completion of the program, students may elect to continue to a
four year program in many related fields. Introduction to Counseling is a required course
for completion of the program.

**Course Requirements:**

</tr>
</tbody>
</table>

**Attendance Policy**

Students are required to attend all class periods for the full duration of each such
instructional session. Grade penalties for absence will be imposed when a student
exceeds a ten-percent absence rate, not to exceed 10% of the final grade. As such, a
student who misses 10% or more of the class time (3 daytime classes or 1.5 evening
classes) will not have earned enough attendance and participation credit and will be
ineligible to earn a final grade of an A regardless of scores on tests and other
assignments. This includes time missed from class due to absence, lateness, leaving early
and extended breaks.

**Preparation Policy**

It is expected that students will come to class prepared having completed assigned
readings, recorded lectures, inventories and other assignments. Failure to prepare for
class diminishes the learning experience. An unprepared student forfeits eligibility to earn
an A for the semester. Required reading and assignments are included with this syllabus.

**Special Note for Students Receiving Financial Aid and/or Veterans Aid:**
Attendance will be reviewed by Financial Aid and Veterans Aid programs, and benefits will be
contingent upon compliance with the program’s regulations.

Attendance and participation are required. Assignments for each unit are detailed in this
syllabus and provided for in Blackboard. In advance of each unit, students are expected
to read all assigned readings, review assigned materials and print for class the
information that is required and will help you to feel prepared to actively participate.
Periodically, additional homework assignments are assigned. This includes completion
of inventories that help the student gain a fuller understanding of the subject matter.
Although grades are not assigned for completion of this work, students will only earn
enough attendance and participation credit to become eligible to earn an A for the
semester when these assignments along with the other preparation requirements are
satisfied. Students are responsible for work missed due to absence from class. If you
decide to withdrawal from the course it is necessary to complete the official withdrawal
process. Failure to complete the requirements of the course could result in a failing grade.
**Recorded Power Point Presentations:** This course contains PowerPoint presentations with a recorded audio component. Students are expected to listen to the lectures prior to the assigned class period. Time requirements for each assignment are included with the PPT title. As such, you will need access to PowerPoint and a computer with speakers or a headset. You may listen to the presentations in the Computer Lab if you bring a headset. A PowerPoint viewer can be downloaded for free from Microsoft’s website: [https://www.microsoft.com/en-us/download/details.aspx?id=13](https://www.microsoft.com/en-us/download/details.aspx?id=13)

Each slide may be viewed as often as necessary to learn the material and may serve as a good refresher before exams.

**Steps to Viewing a Recorded Lecture on PowerPoint:**

1. Print the slides to enable efficient notetaking.
2. Download the presentation from Blackboard. (You know the presentation is recorded because the time requirement is stated on the title of the presentation.)
3. Click “Enable Editing”
4. Beginning with Slide #1, put the presentation on “Slideshow” mode.
5. You should hear the audio component begin and the slides will progress from one slide to the next.
6. Troubleshooting:
   a. If you are not hearing the audio you need to make certain your speakers / headset are set properly with the volume control turned up and the presentation has been set to “Enable Editing”
   b. Presentations are large files and take time to download. Be patient. Most students are able to use laptops and tablets although smart phones do not normally allow for this.
   c. If your system does not meet the standard requirements, use a computer in the computer lab. A headset is required.

**Structure of Exams:** The midterm and final exams each consist of 25 objective questions (2 points each) and a choice of two out of three essay questions (25 points each). Objective questions are definitional, factual and conceptual. A comprehensive review will be provided prior to both exams.

**Philosophy of Helping Statement:** One third of your final grade for the course is based upon your ability to write a narrative statement about your ideas for how persons benefit from the helping process. For students majoring in Human Services this will serve as a vital part of your professional portfolio. As we address various theoretical orientations it is recommended that you record your thoughts and feelings regarding the beliefs of different perspectives. Your job is to keep the perspectives we review clear and distinct in your mind. When we cover material that is a good fit with your beliefs about how people are helped you should record it. I recommend having separate pages in your notebook for this purpose. As we conclude the semester you are asked to write a statement about how you personally approach helping others. This statement should be no longer than one page in length. It should be well written without spelling or
grammatical errors. At the end of the semester you are asked to share your ideas with the class.

The recommended format for the Philosophy of Helping Statement is the standard five paragraph essay style format. It is advised that the paragraphs be sequenced as follows:

Paragraph 1: Introduction to statement
Paragraph 2: Your interest and motivation in the helping profession; describe how you became interested in working with people while avoiding inappropriate self-disclosure.
Paragraph 3: Populations and problems you wish to work with and the limitations of your competency
Paragraph 4: Theoretical orientation (This is information gained from this course and other learning experiences.)
Paragraph 5: Summary / Conclusion
